

Scientific name	Common name	Bloom Period	Flower Color	Light Needs	Water Needs	Height (ft.)	Comments
<i>Aesculus pavia</i>	red buckeye	Spring to Early Summer	red	sun to shade	M, H	6-20	Small tree
<i>Amorpha canescens</i>	leadplant	Summer to Fall	blue/purple	sun to light shade	L, M	2-3	Woody shrub
<i>Amsonia tabernaemontana</i>	eastern bluestar	Spring	blue	sun to med. shade	M	2-3	
<i>Asimina triloba</i>	paw paw	Spring	purple	part shade to shade	M, H	15-30	Host plant for zebra swallowtail (tree)
<i>Aristolochia tomentosa</i>	Dutchman's pipevine	Spring to Summer	yellow/green	sun to light shade	M, H		Host plant for pipevine swallowtail larvae
<i>Asclepias incarnata</i>	swamp milkweed	Spring to Summer	pink	sun	L, M	4-5	Monarch HP - Only found in NW Arkansas
<i>Asclepias sullivantii</i>	prairie milkweed	Spring to Summer	rose/lavender	sun	M	2-3	Monarch host plant
<i>Asclepias syriaca</i>	common milkweed	Early to Mid-Summer	lavender	sun to part shade	M	2-6	Monarch host plant - vigorous spreader
<i>Asclepias tuberosa</i>	butterfly milkweed	Late Spring to Summer	orange	sun	L, M	1-2.5	Monarch HP - can rebloom in fall
<i>Asclepias viridiflora</i>	green milkweed	Spring to Summer	green	sun to part shade	L, M	1.5-2	Monarch HP
<i>Asclepias viridis</i>	antelopehorn milkweed	Spring to Summer	green/purple	sun	L, M	1-2	Monarch HP
<i>Baptisia alba v. macrophylla</i>	white wild indigo	Summer	white	sun	M	2-3	
<i>Berlandiera texana</i>	Texas greeneyes	Summer to Fall	yellow	sun	L, M	1.5-3	Long-blooming perennial
<i>Ceanothus americanus</i>	New Jersey tea	Spring to Summer	white	sun to light shade	L, M	3-4	Woody shrub
<i>Cephalanthus occidentalis</i>	buttonbush	Summer	white	sun to light shade	M, H	6-10	Good for rain gardens (shrub)
<i>Cercis canadensis</i>	eastern redbud	Spring	pink	sun to part shade	L, M	20-30	Small tree
<i>Clethra alnifolia</i>	summersweet	Late Summer	white	sun to part shade	M, H	3-6	Woody shrub
<i>Conoclinium coelestinum</i>	blue mistflower	Summer to Fall	blue-purple	sun to part shade	M, H	1.5-2	
<i>Coreopsis lanceolata</i>	lanceleaf coreopsis	Spring to Summer	yellow	sun to part shade	L	2-3	May take 2 years to establish
<i>Cornus florida</i>	flowering dogwood	Spring	white	sun to part shade	M	15-30	Host to spring azure (small tree)

Scientific name	Common name	Bloom Period	Flower Color	Light Needs	Water Needs	Height (ft.)	Comments
<i>Dalea purpurea</i>	purple prairie clover	Spring to Fall	lavender-purple	sun to part shade	L	1-3	
<i>Echinacea pallida</i>	pale purple coneflower	Summer	lavender	sun to part shade	L, M	2-3	
<i>Echinacea purpurea</i>	purple coneflower	Summer	purple	sun to part shade	L, M	2-5	
<i>Eryngium yuccifolium</i>	rattlesnake master	Summer	white	sun	M	2-5	Pollinator favorite
<i>Eutrochium purpureum</i>	Joe Pye Weed	Summer	pink-purple	sun to part shade	M, H	3-7	Good for rain gardens.
<i>Glandularia canadensis</i>	rose vervain	Spring to Summer	pink	sun	L, M	0.5-1.5	
<i>Helianthus angustifolius</i>	narrowleaf sunflower	Fall	yellow	sun	M	1	
<i>Helianthus divaricatus</i>	woodland sunflower	Summer	yellow	part shade to shade	L, M	2-6	Host to butterflies and moths. May form colony
<i>Liatris aspera</i>	tall blazing star	Summer to Fall	purple	sun	L, M	2-3	Excellent nectar plant for butterflies!
<i>Liatris pycnostachya</i>	prairie blazing star	Summer	purple	sun	L, M	2-4	Excellent nectar plant for butterflies!
<i>Lindera benzoin</i>	spice bush	Spring	yellow	shade	M, H	6-14	Host plant for spice bush swallowtail larvae! (small tree)
<i>Lobelia cardinalis</i>	cardinal flower	Late summer to Fall	red	sun to light shade	H	2-4.5	
<i>Monarda bradburiana</i>	eastern beebalm	Spring	pink/purple/white	sun to shade	L, M	1-2	May form a colony
<i>Monarda fistulosa</i>	wild bergamot	Spring	pink/purple	sun to light shade	M	2-4	Great plant for pollinators!
<i>Penstemon digitalis</i>	foxglove beardtongue	Summer	white	sun to light shade	M, H	2-4	
<i>Phlox divaricata</i>	woodland phlox	Spring	purple	sun to shade	M	1-3	Great nectar source for butterflies!
<i>Phlox paniculata</i>	garden phlox	Summer to Fall	pink/purple/white	sun to shade	M, H	2-4	Great nectar source for butterflies!
<i>Phlox pilosa</i>	downy phlox	Spring	pink	sun to med. shade	M	1-1.5	Great nectar source for butterflies!
<i>Ptelea trifoliata</i>	wafer ash	Early summer	white	sun to light shade	M	10-15	Host plant for giant and tiger swallowtails! (small tree)
<i>Pycnanthemum tenuifolium</i>	slender mountain mint	summer	white	sun	L, M	1-1.5	Excellent nectar plant for butterflies!

Scientific name	Common name	Bloom Period	Flower Color	Light Needs	Water Needs	Height (ft.)	Comments
<i>Pycnanthemum muticum</i>	clustered mountain mint	Summer to Fall	white	sun to part shade	L, M	1-3	
<i>Ratibida pinnata</i>	grayheaded coneflower	Summer	yellow	sun to med. shade	M	3-4	
<i>Rudbeckia fulgida</i>	black-eyed Susan	Summer	yellow	sun	M	2-3	
<i>Salvia azurea</i>	azure blue sage	Summer to Fall	blue	sun to light shade	L, M	3-5	
<i>Senna hebecarpa</i>	wild senna	Summer	yellow	sun to light shade	M	3-5	Host for cloudless sulphur and sleepy orange
<i>Silphium integrifolium</i>	rosinweed	Summer	yellow	sun	L, M	3-5	Long-blooming
<i>Solidago nemoralis</i>	gray goldenrod	Summer	yellow	sun to light shade	L, M	1.5-2	Thrives in poor, dry soils in sunny locations
<i>Solidago petiolaris</i>	downy ragged goldenrod	Summer to Fall	yellow	part sun	L, M	1-4	Nectar source for monarch butterflies
<i>Symphotrichum novae-angliae</i>	New England aster	Fall	purple	sun	M	3-6	Great for migrating monarchs!
<i>Symphotrichum oblongifolium</i>	aromatic aster	Fall	purple	sun	L, M	1-3	Great for migrating monarchs!
<i>Vernonia arkansana</i>	curlytop ironweed	Summer	purple	sun to light shade	M, H	3-4	
<i>Vernonia baldwinii</i>	Baldwin's ironweed	Summer	purple	sun	L, M	3-5	
<i>Veronicastrum virginicum</i>	Culver's root	Spring to Summer	white/blue	sun to light shade	M, H	4-7	
<i>Zizia aurea</i>	golden alexanders	Spring	gold	sun to light shade	L, M	1-2.5	Host plant for black swallowtail larvae
