

## PCMG Weekly Digest

**Dear Master Gardener,**

**We officially have a Master Gardener Day to celebrate all you have done for you community. If you were unable to attend yesterday we had a great turn out and received a lovely proclamation from Judge Barry Hyde declaring that the third Thursday of every June will be Master Gardener Day. I huge shout out to Arline Jackson who made all this possible. Every one of you truly deserve this day. Your dedication, passion, and expertise have not only beautified our community, but cultivated a sense of pride and connection among us all. Thank you all for everything you have done to make the master gardeners what it is today. If you are interested in watching the news clips from last night and would like to watch them links are below.**

Tomorrow is the last day for the In the Garden workshops and it will be covering integrated pest management in home gardens. If you are interested see the flyer below for more details.

With summer here things are starting to slow down. As you can see below our number of events and upcoming programs has significantly reduced from our spring time newsletters. If you or a group you are a part of have any upcoming events you think the master gardeners would like to be apart of please share them with me and I will put them in the weekly digest.

Thank you for joining constant contact. Feel free to reach out if you have any questions or concerns.

Happy Gardening,  
Derek Reed
